

Legacy of Chief Mountain Masonic Lodge #58 Cardston

When the Chief Mountain Lodge #58 members chose to close this Lodge and join other larger Lodges, they sold the house used for their meetings. The proceeds from this sale were given to the West Wind School Division, on their recommendation, to be invested with their investments for a higher rate of return.

The yearly interest earned is to be used for this scholarship. The amount each year varies depending on the interest rate.

It was the intent of the scholarship to provide financial support to students who are accepted into an Alberta post-secondary institution but who are not eligible for the "elite" scholarships. Preference to be given to those students enrolled in: 1. agriculture programs 2. trades 3. college programs.

Students must have a good work ethic, fairly good marks and may be eligible for the Rutherford Scholarships. The money is to be used in the year it is given and will be sent to the post-secondary institution that the recipient is going to attend.

Applications should include a brief outline of the student's future goals. Selection will be made by a committee as per protocol for other scholarships: the committee has been asked to consider need.

The number of scholarships given out will depend on money available each year. Hopefully, the minimum amount will be \$1000. There is a possibility of two scholarships, if money is available. For example, if \$1500 is available then 1 @ \$1500. If \$2500 is available, then 2 @ \$1250.

Deadline: 1st Friday in May to Mrs. Williams

Applications must include:

Name:

Address:

Institution to be attended:

Faculty/Department Major/Program

A short essay outlining the following information:

Background and interest in agriculture
